Knowledges

I can design from scratch a web project, mobile app or back-end system. I also like to implement the design, either in HTML or HTML5, also I have knowledge of JS, jQuery, PHP ... Always thinking about UX and responsive design.

Many times I work with WordPress, creating or editing WP Themes. In addition I have experience in project management. Other tasks I do are: realization of newsletters, banners and promotions web and mobile, customizing WordPress and Social Networks.

As Graphic Designer I love create Logos, Corporate Identity, Iconography, Branding...

Tools

Photoshop, Illustrator, Figma, Sketch, Marvel, Zeplin, InVision, Code apps, Git, HTML, HTML5, CSS, CSS5, jQuery, JS, WordPress, PHP, Miro, Prototypes, Jira, Slack, Agile
